

Cookies policy

1. Introduction

- 1.1 Our website uses cookies.
- 1.2 We will ask you to consent to our use of cookies in accordance with the terms of this policy when you first visit our website. / By using our website and agreeing to this policy, you consent to our use of cookies in accordance with the terms of this policy.

2. About cookies

- 2.1 A cookie is a file containing an identifier (a string of letters and numbers) that is sent by a web server to a web browser and is stored by the browser. The identifier is then sent back to the server each time the browser requests a page from the server.
- 2.2 Cookies may be either "persistent" cookies or "session" cookies: a persistent cookie will be stored by a web browser and will remain valid until its set expiry date, unless deleted by the user before the expiry date; a session cookie, on the other hand, will expire at the end of the user session, when the web browser is closed.
- 2.3 Cookies do not typically contain any information that personally identifies a user, but personal information that we store about you in our CRM may be linked to the information stored in and obtained from cookies. In such case it enables us to identify potential customers and target our marketing efforts (profiling).
- 2.4 Cookies can be used by web servers to identify and track users as they navigate different pages on a website and identify users returning to a website.
- 2.5 Many cookies on ComAp Website perform essential functions or services you have requested or for security purposes, as further described in the table below. We use cookies to make the ComAp Website easier to use and to better tailor our Website and our products to your interests and needs.

3. Our cookies

- 3.1 We use session and persistent cookies on our website.
- 3.2 The names of the cookies that we use on our website, and the purposes for which they are used, are set out below:

Cookie name	Expiration	Purpose
ASP.NET_SessionId	Session	Keeps the user session ID for security reasons.
CMSCookieLevel	Session	Specifies which cookies are allowed by the visitor.

CMSCsrfCookie	Session	Store's a security token that the system uses to validate all form data submitted via POST requests. Helps protect against cross site request forgery – e.g. to fill in a form of an attacker that seems to be from a certain website.
CMSPreferredCulture	Persistent approx. 356 days	Stores the visitor's preferred content culture - language.
CurrentContact	Persistent approx. 545 days	Stores the GUID of the contact related to the current site visitor. Used to track activities on the website and store marketing-related information about visitors. Contacts cover both anonymous visitors (identified by an HTTP cookie) and regular registered users or customers (identified by username or email address).
VisitorStatus	Persistent approx. 2500 days	Indicates if the visitor is new or returning. Used for tracking the visitors statistic in web analytics.
.ASPXFORMSAUTH	Cookies kept only during the session time	Stores the user's encrypted authentication ticket when using forms authentication.
